

## Jane Thompson

Strategic Associate,  
Asia Pacific

### AT-A-GLANCE

- Management and Leadership Development
- Agility and Transitional Leadership
- Presentation and Communications Skills

- Asia Pacific

Jane delivers insightful and participative workshops while sharing her own pragmatic operational and line management experiences with 'stories from the trenches'!

#### Business Experience

Jane is responsible for managing all major aspects of the Teape Training International (TTI) business in the Asia Pacific (APAC) region as well as overseeing the daily operations. As owner of Thompson Training, Jane has routinely demonstrated the vision, dedication and diligence necessary to support her clients in the APAC region. Thompson Training works in partnership with TTI, consulting and engaging with organizations to provide tailored professional development solutions.

As well as program design and facilitation, Jane is also a trusted resource and coach up to executive level. She is able to bring real life experiences to the table and guide individuals to work through their own strategies.

#### Career Background

In the UK, Jane held leadership positions in retail and investment banking, first NatWest Bank, then JPMorgan collectively over 23 years, supporting the strategic people agenda and project managed many global professional development initiatives which helped directly shape the success of the business (including staff acquisitions, onboarding and risk management culture).

During her collegiate career, Jane earned the UK Certificate in Training Practice; UK Diploma in Management and the Australian recognized Certificate IV in Training & Assessment. Jane is an associate member of the Chartered Institute of Personnel and Development (UK); Australian Institute of Training and Development; Australian Human Resources Institute.

#### Testimonial

"Jane has been an invaluable help to the business for several years. There are many terrific providers of management training in the region, but I would rate Jane as the best I have worked with. Not only has she been able to deliver workshops devised by our head office brilliantly, she has been able to customize them to a greater and greater degree as she got to know my teams in APAC and my colleagues in Australia & New Zealand. More recently she has originated workshops for my senior management team that have helped us define our aspirations and articulate our purpose whilst aligning our specific business objectives with the corporate priorities. And in all this she has always put the needs of the individual first."
